WELCOME

Welcome to Regis. We want you to feel at home with us.

This handbook contains helpful and important information to help you have a positive stay with us.

Our Philosophy

At Regis we have adopted the philosophy “knowing is caring”. This philosophy is aimed at assisting us to develop a relationship with you to ensure we understand your preferences for the care and services you receive from us.

We are committed to treating you with respect, by:

1. Acknowledging your right to privacy and dignity, and to exercise choice and independence.
2. Valuing your identity, culture and background.
3. Recognising your right to make your own informed decisions (wherever possible) about your life, care and services. This is often referred to as *dignity of risk*.

We set our standards high.

All our homes are fully accredited and undergo stringent assessments on a regular basis – both from external agencies and through our own internal audit processes.

OPTIMISM:

We are enthusiastic about what we do.

PASSION:

We make a positive difference every day.

INTEGRITY:

We act in a professional and ethical manner at all times.

RESPECT:

We listen, we are polite, and treat every person with courtesy.

Our people are here to help. They'll no doubt become more familiar to you during your stay. Please let us know if you have any questions or if there is anything we can help you with.

Get involved as much or as little as you like. This is your home.

We hope you'll be happy living here.

1. GETTING SETTLED

Any new place can seem strange at first. When you arrive, we will show you around and discuss some of the things covered in this chapter. Our goal is to get to know you so you feel comfortable settling in for your stay with us and to help us provide you with the care and services that you need.

While you're getting familiar with your new surroundings, you'll see community areas and amenities marked on floor plans displayed throughout the building to help you find your way around. Our team are also happy to help guide you, so please ask for their assistance.

1.1. Initial Care Consultation

When you join us we will arrange a care consultation with our nurses. If you would like a family member, friend or other representative can also attend this consultation with you or in your place. This initial care consultation will focus on the planning and delivery of care to you, and the preparation of a care plan. This forms part of our "Knowing is Caring" philosophy, which helps us to understand what your needs are rather than just assuming that we know.

1.2. Your Room

We know it is important to have your own things to help you feel at home and we encourage you to make your room your own. Your room comes with a single bed and a lockable bedside table.

If you would like to make any changes to your room, please let us know so we can work with you to ensure any changes you may want are safe for everyone and suit your care requirements. Please be aware that if you do make any changes to your room, you will be responsible for restoring your room to how it was before you moved in when your respite period ends.

We ask you (or if appropriate your representative) to please keep your room clean and tidy and free from obstacles and hazards to help ensure your safety and the safety of our team and your visitors.

1.3. Valuables

If you want to keep items of sentimental value with you, please remember this is a communal living environment and as such, you do so at your own risk. We suggest you give valuables to relatives or friends for safe keeping, and recommend you do not keep large amounts of money or valuables in your room. We recommend that you insure any valuables as our insurance will not cover you for the loss or damage of such items.

1.4. Personal Assistance Items

Many people who live here have personal assistance items such as spectacles, hearing aids, dentures, electric wheelchairs or motorised scooters. Please let us know if you have, or would like to purchase an assistive device, so we can:

- a) advise whether or not your device can be used within the home – due to their size, some motorised scooters and electric wheelchairs cannot be used within our homes for safety reasons;
- b) make all efforts to ensure that your devices are functional;
- c) ensure that our staff are educated on their care and use.

We ask that you ensure these items are clearly labelled with your name and recommend that you insure personal assistance items as our insurance will not cover you for the loss or damage of these items.

1.5. Clothing

We provide laundry and housekeeping services to support you as you live with us. Our laundry service is not suitable for clothing that requires a delicate or hand wash or other special handling. As such, you may prefer to have a family member or friend care for delicate laundry on your behalf. We can organise access to dry cleaning services for you, however please be aware that you will be responsible for the cost of this service.

All personal items of clothing must be clearly labelled when you arrive at Regis. Please speak to your General Manager if you would like us to label any new clothes, and they will be able to advise you of the cost of this service.

1.6. Call Bell System

A 24-hour emergency call bell system is available in your bedroom, ensuite and living areas. We will show you how to use this system when you arrive at the home.

1.7. Your Personal Information

Your privacy is protected by law and under our Privacy Policy. Our Privacy Policy can be found on our Regis website: www.regis.com.au or you can ask your General Manager for a copy. The Privacy Policy covers the type of personal information we will collect and the circumstances in which we will use and disclose that information. Please let us know if you would like to access your personal information, see our Privacy Policy or have any questions.

1.8. Pharmacy

1.8.1. Helping manage your medication

We take our responsibility to safely manage any medication you have seriously. To this end, Regis partners with a number of reputable pharmacies to ensure a high quality and standard of care. These relationships ensure our residents have access to safe, appropriately packaged medication when they need it, even at short notice and outside of business hours.

1.8.2. Regular medication reviews

For your ongoing health and safety, we adhere to the Pharmaceutical Society of Australia recommendation that regular medication reviews are carried out by an accredited pharmacist. When reviews are carried out, information regarding your medical history and medications will be provided to the pharmacist. If they identify an improvement that may be made, they will communicate with your doctor who will then consult with you.

2. LIVING WITH US

2.1. Our Team

We have a team to support you. You can identify their name by their badge and position by their uniform. See *Identifying Regis Staff Members* on page 21

2.2. What does a day look like at Regis?

This is your home and we will provide the clinical care you need, comfortable accommodation, nutritious and tasty food and a range of lifestyle and other activities.

You will find that we offer considerable choice within the home, but in offering our services, some are by necessity offered in a way that is generally acceptable to and preferred by the overall resident population. This includes meal times and lifestyle activities.

We will, however, do our best to accommodate your preferences where possible. This includes respecting your right to assume risk where you choose.

If you do make a choice that we consider exposes you to significant risk, we will discuss this with you to make sure that you understand the risks involved and to explore ways to reduce the risk. If you want to do something that exposes others to risk, it will not be possible to accommodate your choice.

2.3. Food and Beverages

Regis has a seasonal menu approved by dietitians and designed to meet resident preferences and nutritional requirements. The range includes a mix of traditional and contemporary dishes, fruit and non-alcoholic beverages across all meal periods breakfast, morning and afternoon tea, lunch, dinner and supper.

2.4.5. Allied Health

We will work with you to identify services that you would like to use to help you attain a level of independence. These services might include physiotherapy, podiatry, speech pathology or occupational therapy. Where a health professional assesses you as requiring one of these services to attain a level of independence, such costs may be covered by Regis.

Please let us know if you would like to arrange:

Sometimes you may want a little extra attention and decide to engage a third party service provider such as a carer, companion, or hairdresser to come into the home to provide services over and above what we provide.

Before arranging such services, we ask that you please speak with your General Manager so they can ensure the third party is appropriately authorised to access your home.

NDIS Quality and Safeguards Commission

Regis has now become a National Disability Insurance Scheme (NDIS) provider and for residents that are NDIS participants you have the right to raise concerns directly with the NDIS Complaints Commission.

If you have a concern about your current NDIS supports and services you can contact the NDIS Commission at **1800 035 544**. This is separate and independent to the ACQSC.
